New and modern conditioned warehouse and distribution center  
for Fahrenheit Logistics.

### An interview with Mathieu Cilia, Project Manager at Famalco

[Fahrenheit Logistics](#) Netherlands, part of [Famalco](#), commissioned a new and modern conditioned warehouse and distribution center at the end of 2023: the Famalco House in Breda. It is Famalco's first warehouse outside Malta. That is why Famalco engaged Groenewout to assist and supervise the project from start to finish. "Without their expertise and experience, we definitely would not have managed to realize this new building," says Project Manager Mathieu Cilia.

Famalco is a family-owned company of Maltese origin, operating in a myriad of sectors – from earthmoving, mobility, retail and hospitality to freight forwarding and logistics. In total, Famalco has 11 entities. For its logistics operations, the company recently established a completely new conditioned warehouse in Breda. Through Fahrenheit Logistics, Famalco has been active in the Netherlands for over 20 years.

An average of 15 trucks, mainly carrying fresh fruit and vegetables, leave for Malta every week. "We want to grow further and expand our services for existing and new customers. Having our own warehouse and distribution center in the Netherlands is a logical next step," states Mathieu Cilia, who was Project Manager during the realization of the new cold store.

### Dennis van Steen makes a welcome return

Dennis rejoined Groenewout's team of consultants as Director Customer Projects on 1 February 2024, after previously having worked for Groenewout from 2015 to 2023.

After obtaining a Bachelor in Industrial Engineering & Management Science, Dennis joined a logistics service provider where he worked for large multinationals such as Amazon. Dennis is specialized in the complete process from conceiving, specification, design, tender & contracting, project management up to commissioning and go-live of logistic operations. Recent clients from Dennis are Isero, Bleckmann and bol.

At Groenewout, [Dennis](#) will use his expertise to support WMS and WCS project implementations. Additionally, Dennis will focus on logistics feasibility studies, warehouse design, tendering and realizations.

We are delighted to have Dennis back in our team!

### Visit Groenewout at Supply Chain Innovations 2024

We are looking forward to meeting up in person at Antwerp EXPO, during the Supply Chain Innovations event on 14 March.

The Supply Chain Innovations Event presents a large number of key sessions related to supply chain management as well as offering plenty of opportunities for networking within the supply chain community.

Don't miss the chance to connect with Groenewout at the booth. Our team of supply chain experts is present for an informal discussion of your logistics & supply chain issues. If you have a particular matter in mind or would like to schedule an appointment with [Dirk Becks](#), [Sebastiaan Verburgh](#) or [Isabel Schouten](#), please do not hesitate to contact us via [schouten@groenewout.com](mailto:schouten@groenewout.com).

We look forward to seeing you at Supply Chain Innovations 2024!
